performing increasingly complex alchemy for demanding, moody consorts

learning to silence their Mage Senses long enough to not go insane

learning to just let go and let things happen

Post-Denizen [-]

finding yet another series of convoluted puzzles, buried deep in their land. These puzzles pour poison into the land, and will continue to do so until solved

realizing the voices are gone. Not just quiet, but gone. Without them, they can finally get down to work on their land puzzles

solving the more of the puzzles of their land. Not that that's the end of the horseshit, but hey! Less horseshit always helps

getting sick to death of puzzles and just utterly annihilating one with their game powers
