

CHARACTERS

- [HeartlessBot](#) - A clone of ButlerBot, running Adventure Sim.
- The [NotAMinotaur](#) / The Canine / NAM - something about a father, wasn't always [THIS](#). On the CCTV - Down in the north game, camera 2. Canine is in a loop - did it get Knifed? Has the Tome. Shadowed Philosophy / Mirrored Personality. Flickering in and out of corporality.
- **IC - A second victim of the Eye killer, currently known. NAM approached them with ButlerBot - Ronin works for them. They work under Wanda, and Peewee owes them. They are "NOT QUITE INNOCENT, NOT QUITE THE KILLER."** all from the board. May have conflated different testimonials.
- [Jaimie](#) - AI dungeon, entirely free from JR's influence. He Who Knows.
- Is the Green eye Fiction?
- [Peewee Cassan](#) - The Man, the Devil of Spirals, the Star of West.
- [Alt](#) - Truth's significant other. To the Wasted Trickster; the leprechaun isn't fooling anyone.
- Nidhogg, Rod, Deacon, GHOA, Smokey.
- [Hostage](#) - Head of a Family. Knew a killer who did it for the love of the game, and eggs, from a young age - united families, until a third had another killer.
- Jose, Ose - Combined to some degree with Jaimie, and "THE DEVIL OSE" is the soul and spirit of the train.
- Ambrose - Thrall of Jose, helps run the train.
- Ronin - Old friend of Slaughter. Ex-cop, helped slaughter from two universes back and have stuck together to some degree.
- Horror/ The Host/ The Neighbor/ L-C-003 - Diplomatic significance, and diplomatic immunity. Used Duo Mask inappropriately, both was and was not reflected. Fits in better than others, and slowly supplanting host. Will always be a little bit better than you. Coin and Mask.
- Tyrfing / L-C-003 - The horror's soulmate. Knows what matters. Loves baking, PTA meetings, local politics - protective of his non-clone children. Devotee of Nidhogg - spreads the Secret Truth of the Betrayal of the Four Divines. Bottle.

Eyedol Employees

- [Wodin](#) / [Wanda](#) / Wanderer / Odin / Lord of Space. Died, time loop? Formerly odinsRazor, currently CEBro. Made the Quotidians. Has the mirror. Unable to communicate clearly. Universal parasite. Used spiders to dig - Spiders, to Crows, to Employees.

- [Flower](#), troveTextextravaganza. Chief Financial Officer at Eyedol, knows Wanda well - Wrote the FAQ. Some connection to Nidhogg? Has the Sextant - reality is an illusion. Did she use the Sextant to write the FAQ?
- [The Eye Killer](#) / The Innocent - suspected to have been an employee of Eyedol, that seems to be wrong - or if it's not, then Wanda doesn't know. Used a razor blade that makes people unable to see, or maybe remember the body. Selective mutism, fear of being Known/Truth - fearing of Good and Proper Knowing. Passion for egg, the Hostage's monster in the closet. Her soul is in the shape of a ram - a rat? - weak, but knows when and how to act. Sheep are sacrificed to travel through time. The Innocent and the Killer coexist - as long as the Killer survives, the Innocent is vivisected from the body. When the Killer leaves, the Innocent must fulfill her Role.
- [JR](#), mcdonaldsLover1994/wendysCEO1994 - Leader of the Quotidian Quorum - looks like she's in charge of day-to-day work, and some amount of spying on various parties. Sort of a meta joke, but also I think she has an amount of power over the real world. JR is the Gorgon? - transitioned from jadedResearcher to justifiedRecursion. The spiral? Echidna triggered the transition.
- [The Closer](#) - Static and hostile, hollow. Has the Cloak, may become shapeless and formless.
- [Todd](#), theBestDude72, the Intern. Best friends with Wodin, when she died, got a job at Eyedol from her.
- [Truth](#) - run by JR. Trying to undermine JR? Outwardly hostile to all involved parties, including self. "JUST MONIKA BUT SPADES"

Avatars

- Fiona Slaughter - Writes notes on the Avatars. From another universe. Weird religion - cannot conceal information. It Yearns to be Known. Pink.
- [Ria](#) / [Match](#) / L-0-R5 - Theta. Did Ria get Quatro'd? She is the Match - truly wishes for a better world, trying her best. When the fires of heartbreak consume her, she will come out the other side stronger - not in this loop of the spiral. It is Not a spiral. Buds with Camille. Burns the world to ash when stressed. Otherwise normal. The Match burns the smile away - She Will Never Be Hurt Again. It's her fault, she feels bad about it, but it is. Obsessive and addicted, literally and metaphorically. Reader insert. Swings between violent defensive outbursts and retractions to avoid injury. False hope ruined her, no secret purpose - making progress. Feverish - burning.

- [Yongki](#) / Reflection - When the Captain is not in charge, Yongki looks through his eyes. This is enough to reflect a mirror, and Captain's gift is something else. Kept being exposed to a mirror after running out of universes. Gift was to keep the mirror when he goes into a reflection. Every time they see a mirror they were reset. Solitary, as other Avatars stopped trying to interact with someone whose memory would reset. Curious, unwilling to face anything. Captain and Yongki feud. Not sure who he is or what he wants now that he is not resetting himself.
- [Captain](#) - Captain is the original Yongki, two people know how he returned to his body. The captain doesn't bring the Mirror with him. Strict, prefers rules. Combative relationship with Yongki. Trying to understand why the Corporation was CORRECT. All Around Helper.
- Witherby / [Solemn](#) / L-0-R1 - Doc Slaughter will 'lose visa to reality' if she interacts with Witherby. Standoffish and cold, professional. Will go far to help inner circle, moral compass - petty thief. Therapy service during office hours. Therapizes friends to quell God.
- [Vik](#) / _ - Stopped protecting Yongki, friends with Parker. Ronin had to stop Doc Slaughter from investigating Vik, and Doc Slaughter was mindwiped for it. No worth unless Serving others - practicing self care. Has to Eat, and will Eat others against his will.
- [Camille](#) / [End](#) / L-0-17 - Unending strength, cannot form connections. Zampanio allows the gift to mutate - the curse is evil to fool. Very clearly a corpse from the neck down. Warm, mischievous, wants to be loved - Used to be insecure, clinging to loved ones, now avoids them with speech gone. No interest in regaining speech as she believes it impossible. Formerly the captain. Echidna's immune system.
- [Parker](#) / The Shot / L-0-21 - What you see is what you get. Impulse control was stolen by GUN-TAN a few universes ago. Loves tunnels , takes advantage of notes and cards. Kidnaps Doc Slaughter often, but is trying to stop. Buds with Vik. Wants, but does not need. Even with his unique interactions, there are ways to safely interact. Everything was his fault. Killed the rest of control (?). Shot Wanderer. The Gun is eating, or ate him. Violent hatred towards Wanda. Wants to leave, and dragging Avatars through the mud behind him. He's not a character, he is forced to watch. It's hard being wasted.
- [Neville](#) / [Twins](#) / L-0-R2 - Transform when the other is harmed. Doing poorly, but improving. Has accepted the situation, smart and

notices things others don't. Pares down to essentials - understands what's important, destroys and ignores what isn't.

- [Devona](#) / [Twins](#) / L-0-R4 - Too kind for own good, hides pain and fear as she is scared of burdening others. Neville knows when she's lying, but she's scared of that. Cannot maintain form, Neville is going to die?. Transform when the other is harmed.
- [K](#) / Khana / L-0-13 - Khana dislikes Doc Slaughter, but visits her regardless to gloat (?). He has access to her notes, which he finds in between loops of the spiral. He is much more stable than early loops. He likes having knowledge and power over others, and he gets "EYES" through this work. 'A standard case of Eye Mania'. Trauma could not be reasoned with - only power and safety may be trusted, and they must be taken. Being seen is no longer a matter of life and death. Willing to kill, doesn't revel in it.
